

## Poster Design

Your "Wanted" poster can reflect your personal design style, but must follow a few basic guidelines"

1. **All posters must be printed on 8 ½" x 11" paper.** This size is typical printer paper. Large posters will result in a lower grade.
2. **The name of your scientist must be clearly visible on your poster.** Anyone who glances at your poster should be able to tell which scientist you researched.
3. **The "Wanted" poster theme must be followed.** Meaning your poster should read "<Name of scientist> Wanted for <one sentence explaining his/her importance>".
4. **Creating the poster on computer is preferred,** but if you are unable to use a computer for anything other than research, you may construct the poster by hand. It must, however, be written very neatly in pen/marker.
5. **Your name and class must be printed on the bottom right corner.**

### EXAMPLE

<b>Lazlo and Georg Biro</b> <b>Wanted for</b> <b>Non-Leaking Ballpoint Pen</b>	
	
<b>Lazlo and Georg Biro</b> .....	
.....	
.....	
.....	
<b>Lazlo was a chemist and Georg was a newspaper editor.</b>
